

OLIVER: A Week in the Life of a Maths Fresher

Time:	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Morning	9-10am Probability Lecture 10-11 Linear Algebra Lecture 11-12 Discrete Maths Lecture	9-10am Dynamics Lecture 10-11 Discrete Maths Lecture 11-12 Discrete Problems Class	6:30am Rowing with BCBC 9 Back to bed, lucky enough to have no lectures today!	9-10am Analysis Tutorial 10-11 Analysis Lecture	9-10am Probability Lecture 10-11 Linear Algebra Lecture	Lie in!	Food shop. Walked past the library and considered going in, then I remember that I'm a science student and don't need to.
Afternoon	1-2pm Analysis Lecture 2-3 Linear Algebra Tutorial 3-4 Statistics Lecture	12-1pm Probability Lecture 1-2 Linear Algebra 2-3 Statistics Problems Class	1-3pm Lacrosse training on Milfield field 4-5 Rowing fitness training	2-3pm Statistics Lecture 3-4 Probability Tutorial	12-1pm Statistics Computer practical 2-3 Dynamics Lecture 4-5 Dynamics Tutorial	Maths assignments	Rowing with BCBC (at a much more agreeable time)
Evening	Jogging with flatmates	Mentor Night – chat with my mentor and free food!	Dinner and a short nap to get ready for...	Pool Match	Friend's Birthday meal at Spag's	7-9 Volleyball in the Howlands	JCR Meeting
Night	DUCK Expedition meeting at the DSU	Early to bed ready for early morning rowing	Loveshack! Truly the only place to be in Durham on a Wednesday night.	A relaxed evening in the bar with friends.	Singstar in the JCR – don't mock it till you've beaten me at Amy Winehouse!	Silent Disco in Butler Bar	Games night with my flatmates

HANNAH: A Week in the Life of a PPE Fresher

Time:	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Morning	Ethics and Values lecture at 10 – leave with brain boggled from philosophical discussions	Rowing at 6:30am. 9am Economic Methods tutorial, no big motivation to get out of bed.	Knowledge and Reality lecture at 10.	Every other week, Thursday is my day off! Otherwise a one hour tutorial...	Go for a run! Read a little.	Rowing at 8 am. Improvement on Tuesday's 6:30am start!	Lie-In!
Afternoon	Methods lecture at 3. Elements of Economics lecture at 4. Loving those back-to-back lectures!	Ideas and Ideologies politics tutorial at 12 – the most enlightening hour of the week.	Run up from Elvet to the Science Site for International Security, Interdependence and Organisation at 11.	Go to the library and do some work.	Elements Lecture at 4.	Contemporary Dance at 1, Modern at 3	Call my parents for an update. Skype my friends from home.
Evening	Running society at Butler at 7pm, or a formal depending on what week it is.	Economic Methods lecture at 4pm	Charity Comm meeting at 4, rowing circuits at 5 and dancing at 7 – busy evening!	Mentor night at 6, stay in the bar for a bit.	Winter Ball Comm meeting at 6.30	Cook a proper dinner for a change.	Erg Session at 5. Urgh.
Night	Chill in the kitchen with my flatmates. Catch an early night.	Yoga in the Howlands building at Butler at 7pm to relax.	Have a takeaway with my flat and prepare for Loveshack Wednesday!	Sit in the kitchen with my friends, pretending to work.	DUCK Expedition Social – get to know the people I'll be climbing Kilimanjaro with.	Go out! Studio usually!	Quiz in the bar at 8 Last minute essay writing

BECKY: A Week in the Life of a Biology Fresher

Time:	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Morning	Double Diversity of Life lecture 9-11, basically watching David Attenborough clips	A rare morning off to sleep into the afternoon :)	Nursing a hangover in my Molecular Basis of Life lecture at 9. Horrific.	Hungover/ in a Cells lecture at 9.	Labs day – either a full morning or a full afternoon (sometimes even both) of summative labs, with work set at the end.	Lie-in!	Lie-in!
Afternoon	Lectures non-stop 2-6. Sometimes I wonder why I did a science degree...	Anthropology People & Cultures lecture at 2 – my optional module (and very popular module)	Some form of sporting activity, like lacrosse or social badminton – maybe even the gym!	Have a few hours free so use the time to go over and write up notes from previous lectures in the week, then lectures 2-5.	Probably a biology tutorial in the middle there somewhere as well...	Tesco shop – the Howlands bus doesn't run on Sunday, so best to do a town trip today. Then an en masse flat outing to the gym.	Badminton match in the Howlands or another college. We win (obviously).
Evening	Monday night formal, most likely with a fancy dress theme and copious amounts of wine!	Have food at mentor night from 5:30-7. It's decent food and most importantly it's free so you'll see everyone there.	Charities Comm and Arts Comm meetings – more great ways to get involved and be proactive in college life.	Have dinner with the flat, or if we really can't be bothered to cook it's back to mentor night!	Dinner with the flat followed by an evening at the bar for Butler Live – great live music and a good excuse to get some cheap college drinks!	Go over lecture notes and maybe do a bit of extra reading if I'm feeling keen (but probably not)	Attempt to start that summative report I was given on Friday...
Night	Sleep after a ridiculous amount of lectures.	Pre-drinks, then on to Studio or the infamous (but beautiful) institution that is Klute.	Pre-drinks at our flat then the best night of the week – Loveshack Wednesdays!	Choir, then catch up on The Apprentice and watch a film with friends.	Chill in the flat, or end up going to Klute if I'm persuaded!	Studioooo!	JCR meeting! Then chill with lots of chocolate and a film before Six-Lecture-Monday strikes again.
